## Look Here

Here I am again. I am still  
shaving and cutting hair both for  
25c. A nice, clean, up-to-date  
two chair shop. And I have a  
lot of goodies to eat in my Rest-  
aurant Department—All kinds of  
soft drinks, chewing gum, tobac-  
co, cigars, and anything to eat  
from hominy and birds' tongue  
up to a cow's head. Fresh hog,  
irish potatoes, bananas, beef  
trimmed close around the horns,  
coconuts, pop corn, hamburgs,  
and other good things to eat, all  
tied up in a 25c package and sold  
for one dime, 10c, the tenth part  
of a dollar. Come in and see me,  
I am just South-east of the Cust-  
om House, near the college.  
Look for my sign just east of the  
Postoffice. I have beds for 25c  
and meals for 25c. I am still  
"around here" in Cookeville.

#### TIMBER AND WASTE LANDS

By R. S. Maddox, Forester for  
the State Geological Survey

Timber and agricultural lands are  
two of the State's very important re-  
sources. These may suffer from  
many causes, but certainly the way in  
which much of the agricultural land  
is tilled at present is a most potent  
factor, and playing a very strong  
part, not only in creating waste land,  
but also in causing timber loss. If  
there was an inexhaustible supply of  
timber; if there were an inexhausti-  
ble amount of land to clear, there  
might be some excuse for this type  
of waste. But vast amounts of tim-  
ber throughout the State are depend-  
ent upon the cultivated land. How?  
In this way. When the tilled land,  
especially on slopes and hills goes to  
waste, more woodlands are stripped  
off to fill its place, resulting in less  
and less timber. This process of  
improperly handling agricultural land  
cuts like a two-edged sword. In two  
ways. It causes timber loss and  
waste land.

The system that keeps the land  
built up and reclaims the waste places,  
helps to maintain the woodlands.  
Many acres now in timber will, and  
should logically be cleared for farm  
use, but why hasten that day by wast-  
ing? Why not maintain cleared land  
and let the clearing of more land  
come about naturally through the  
demand for an increase in popula-  
tion? It is a destructive method  
constantly to rob the farm land. As  
a natural result it goes to waste and  
to gullies. This method makes the  
woodlands pay the penalty by cut-  
ting off the timber, and then subject  
them to the same wasteful treatment  
that the others underwent. This  
will never develop these two resour-  
ces of the State.

Why not change around? Every  
farmer is a producer so long as he  
maintains his soil for continuous  
production. He is not a producer if  
he simply takes something from his  
soil. Therefore let him reclaim the  
waste areas, build up the land for  
agriculture, and prevent erosion.  
Thus he maintains the farm land and  
prolongs the decreasing forests.

There is only one better man than  
the man who gets behind and push-  
es an effort to improve this town, and  
that is the man who goes ahead and  
pulls.

## U. S. MARSHAL GIVES HIS ENDORSEMENT

Prominent Official and Leading Cit-  
izen Comes Out With Strong  
Statement

Colonel C. C. Gwin, United States  
Marshal for the Southern District of  
Alabama, with headquarters at Mo-  
bile, one of the best known men in  
the "Cane Brake" section of Alabama  
and a large property holder there,  
enthusiastically recommends Tanlac.  
Colonel Gwin needs no introduc-  
tion to the people of South Alabama  
as the position he holds is one of  
great honor and large responsibility.  
He is not only a prominent citizen  
and property holder, but is known  
throughout the State as a man of a  
few words and strong convictions.  
He calls a spade a spade and says  
what he thinks.

When seen at his offices in the Cust-  
om House Friday afternoon, Colonel  
Gwin stated in the presence of three  
persons that his niece, Mrs. W. M.  
Wedgworth, of Wedgworth, Alabama  
who had been ill for a long time suf-  
fering from stomach disorders and  
other ailments, was induced by a re-  
lative in Birmingham to try Tanlac.  
This was but a short time ago, and  
Colonel Gwin stated that he knows  
it to be a fact that she is now per-  
fectly sound and well, feeling no in-  
convenience whatever. He also stat-  
ed that H. M. Hardenburg, his son-  
in-law, who lives at Greensboro, Ala-  
bama and who recently paid a Cin-  
cinnati specialist fifty dollars for  
treatment without benefit, said that  
after taking Tanlac three days he  
could eat almost anything without  
suffering any inconvenience or pain.  
Tanlac is sold exclusively in Cooke-  
ville by Wyly Drug Co. adv.

#### Housework Is A Burden

Woman's lot is a dreary one at  
best. But with backache and other  
distressing kidney ills life indeed be-  
comes a burden. Doan's Kidney Pills  
have made life brighter for many  
suffering women. Read what Mrs.  
Ramsey says:  
Mrs. Ella Ramsey, N. Maple St.,  
Lebanon, Tenn., says: "I suffered  
terribly from a dull ache in the small  
of my back and was sore and lame.  
I tired easily and could hardly do any  
sweeping or other housework. When  
I read about Doan's Kidney Pills, I  
used two boxes. They strengthened  
my back, put my kidneys in good  
shape and made me feel like a dif-  
ferent person."

#### \$100 Reward, \$100

The readers of this paper will be pleased to  
learn that there is at least one dreaded disease  
that science has been able to cure in all its  
stages, and that is Catarrh. Hall's Catarrh Cure  
is the only positive cure. It is known to the med-  
ical fraternity. Catarrh being a constitutional  
disease, requires a constitutional treatment.  
Hall's Catarrh Cure is taken internally, acting  
directly upon the blood and mucous surfaces of  
the system, thereby destroying the foundation  
of the disease, and giving the patient strength  
by building up the constitution and assisting  
nature in doing its work. The proprietors have  
so much faith in its curative powers that they  
offer One Hundred Dollars for any case that it  
fails to cure. Send for list of testimonials.
